January 2010

Dear member

The general election: an appeal

Last June we beat the ruling Labour party in the Euro election. In the coming general election we have, at last, a real chance of seats at Westminster.

With the passing of the Lisbon treaty and the appointment of Mr van Rompuy and Baroness Ashton as our new political leaders, events have moved even further in UKIP's favour. British voters now understand how much European Union threatens our very way of life. They like our policies and values, and they are more than ever convinced that the three old parties are chronically incapable of tackling the great issues that now face our country. The professional political class has never been held in such low esteem.

In Lord Pearson we have a new leader with stature, vision and dynamism who brings our party great credibility. In the North West, membership is up by 40%, we have many new active branches and 90% of North West constituencies have candidates already in place – nearly all of whom are funding their own deposits and election leaflets (around £1,200 each).

Our party is, indeed, well placed for a spectacular result and, in the North West, I want us to give all our candidates as much support as we can, both with active campaigning and finance. Please give the party as much as you can at this crucial time (form enclosed). We are aiming to collect £50,000 locally and most funds will be used for carefully targeted leaflet distribution.

Let's introduce a dose of good Northern common sense into British government and shake our rotten political establishment to its roots.

And please accept my sincerest thanks for all that you have done and will continue to do for our party.
